

## WEYMOUTH GAZETTE.

PUBLISHED EVERY FRIDAY BY THE  
GAZETTE PUBLISHING COMPANY  
(W.M. CORP.)

WEYMOUTH, MASS.

CHARLES H. WILLOBY,  
Manager and Editor.

ENTERED AT THE POST OFFICE AT WEYMOUTH  
AS SECOND-CLASS MATTER.

FRIDAY, OCT. 7, 1904.

The river Rihne usually carries a larger volume of traffic than any single railway in the world.

The expression "golden grain" certainly contains more of truth than of poetry this year.

Great Britain's 22,380 miles of railway carried last year twice as many passengers as were transported by the 203,132 miles in the United States.

Andrew Carnegie says that when Canada decides to make a change, it will chop away at the line dividing it from the United States, in the hope that Americans will hear and help from the other side to make the union.

Recent investigations by life insurance experts in Great Britain and the United States show that total abstainers have a much higher chance of life than have moderate drinkers. Between the ages of 20 and 30 years the number of deaths is 11 per cent; between 30 and 40 it is 16 per cent; between 40 and 50 it is 24 per cent; between 50 and 60 it is 42 per cent and after the age of 60 the percentage gradually decreases. The reasonable inference is that under the age of 50, the greater part of the weaker drinkers have died, leaving only those who are exceptionally strong physically.

### HIGH SCHOOL NOTES.

The members of the senior class held a meeting in room 6 last Tuesday afternoon and elected the following officers for the ensuing year: President, Whelan; vice-president, Sheedy; secretary, Miss Hoyt. The election of a treasurer was postponed in order that the present incumbent might have time to collect the class dues.

Mr. Sampson addressed the pupils Wednesday morning and impressed upon their minds the value of the services rendered his country by the late Senator George F. Hoar.

Assistant Master Nash of the football team addressed the following school October 5, open; October 11, Quincy high at Quincy; October 15, open; October 21, Hingham high at Hingham; October 22, Abington high at Abington; November 4, Milton high at Weymouth; November 10, open; November 16, Abington high at Weymouth; November 22, Milton high at Milton.

At a meeting held by the juniors on Thursday of last week the undivided business of the previous meeting was the first matter to claim attention. Crimson and white were chosen as the class colors and after an hour's debate the boys came out the victors in the selection of a class pin.

Carl Garafalo '04 visited the school on Tuesday. Mr. Garafalo has entered Boston University.

Ernest Fisher '05 has left school.

After several attempts to get the sophomores together, a meeting was held on Wednesday of last week. Hart was elected president and Curtis vice-president. Then the meeting adjourned to the following Friday when Miss Richards was elected secretary and Raymond treasurer. No decision was reached as to class colors, but a committee of six was appointed to present, at the next meeting, some different combinations to choose from.

The drawing classes have been organized and about seventy pupils are divided between free hand and mechanical drawing.

Miss Sophie P. Parker of Rockport, Mass., visited the school on Thursday.

Fred V. Garey '04 visited the school on Tuesday.

Kenneth Torrey '04 has entered the Normal Art School.

HART 07.

### THE EASTON COMPANY.

New Massachusetts Corporation Will Deal in Leather, Skins, Hides, Etc.

The Easton Company, Weymouth, Mass., organized under Massachusetts laws September 21, 1904, for the purpose of dealing in leather, skins, hides, etc. Capital stock, \$15,000, divided into 150 shares all common, par value \$100 each. The officers and stockholders are as follows: President, Douglas M. Easton, East Weymouth, 148 shares; treasurer, Robert S. Mills, East Weymouth, 1 share; and vice president, Max Brown, 82 Lincoln street, Boston, 1 share; total, 150. The capital is paid in the following manner: 150 shares representing three secret processes for water-proofing, staining, and coloring leather—Boot and Shoe Recorder.

### W. R. C. Notes.

The next meeting of Corps 102 will be held in G. A. R. hall next Tuesday evening. Supper will be served at 8:30 p.m. and will be followed by an entertainment at 7:30. Tuesday evening has been designated as W. R. C. night and the committee have made a special effort to have an interesting program.

The quarterly meeting of the Norfolk County Association will be held in the Congregational church at Milton on Wednesday, October 12.

The officers of W. R. C. 102 have been invited to a reception to be given by Ladies' Aid Society, No. 31 to Estella Richards who has been elected National vice-president. The reception will be given in G. A. R. hall next Monday evening. Camps and auxiliaries from Brockton, Braintree and Quincy and also Reynolds Post 58, G. A. R., have been invited to attend.

Sons of Veterans Auxiliary No. 31. The first of a series of tea whilst parties will be held in G. A. R. hall at 8 o'clock Saturday evening by the ways and means committee of Auxiliary No. 31.

### \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has not yet all the time to find a positive cause known to the medical fraternity. Castris being one of the most frequent cases of such treatment. Hail's Castris Cure is taken internally and externally, and is applied to the various surfaces of the system, thereby destroying the disease. It is a safe and effective remedy, strength by building up the constitution and assisting nature in doing its work. The proprietors have no money to pay for advertising, so they offer the hundred dollars for any case that it fails to cure.

Address, J. F. CHENEY & CO., Toledo, Ohio. Mail by registered, inc. Hail's Family Pills are the best.

### Weymouth, Thirty Years Later.

(By Chas. Francis Adams. (Continued))

Such is the poet's rendering: now what were the facts? We all recognize in these cases what is known as poetic license. It is the unquoted hard facts and actual conditions to make realities conform to his idea of the everlasting fitness of things. On the other hand, it is but fair that, in so doing, the artist should improve on the facts. In other words, he should at least not make them more prosaic than they were. In the present case, I submit, Longfellow, instead of rendering things more poetic, made them distinctly less so. This I shall now proceed to show. And here let me premise that it was the habit of Longfellow, as I think the unfortunate habit, to improvise, so to speak to evolve from his inner consciousness the local atmosphere and conditions of those poesies in his which he dealt with history and historical happenings. It was with this in mind that, in the "Tales of a Way Side Inn," it is notorious it was so with the episodes dealt with in the "Tales of a Way Side Inn." This is notorious it was so with the episodes dealt with in the "Tales of a Way Side Inn."

Thomas Weston acted on a well-defined principle that, in his opinion, which has deservedly become an article of classic, as such throwing a glamour of romance over that entire region, to which it has given the name of "The Evangelic country." Longfellow never sought to draw inspiration from actual contact with that "forest primeval" of which he wrote; nor again, when dealing with the events of our own early history did he once visit, much less study, the scene of that which he pictured. He imagined every thing. I gravely question whether he even knew that the conflict had taken place with the Indians, or whether he had lived and imagined. He certainly, and more's the pity, never stood on King Oak hill, or salled to Old Fort River.

What actually occurred is, April, 1623, I have endeavored elsewhere to describe in detail just as it appears in my early records. Those curios on the subject will find my narrative in a chapter entitled "The Smoking Flax Blood-Quenched," in a work of mine, the truncated outcome of my address here in 1874, entitled "Three Episodes of Massachusetts History." To that I refer them. Meanwhile, suffice it to me now say, that, in the case of Miles Standish and the Wessagusset, he who is responsible for the whole is the author of the poem.

Longfellow's poem is a good one, but it has seems to have a redundancy for the author, and, in the early spring of 1622, those composing the advance of Thomas Weston's company arrived at the Damariscotta station, on the group of islands just south of Penobscot bay, where they found that the men belonging to the ships then fishing had newly set up a Maypole and were very merry." But, a band of sea-farers only, there were no families at that company. These, one and all were mere fishing or trading posts; and so far as I have been able to learn, not until the Mayflower put into Provincetown harbor on the 21st of November, 1620, had any women of European blood ever set foot on New England soil. That day is properly celebrated. It marked the close of the trade-exploiting period, and the beginning of true colonization, with somewhat the same interval between, or, at most, with an interval of less than six months, from early April to mid-September, the Gorges settlement followed here at Weymouth on that of Weston. Except in one respect, I now find my thirty years ago treatment of this Gorges' settlement unsatisfactory. I failed to grasp its significance in connection with the European occupation of Massachusetts; and in that connection it has a very considerable significance. To a certain extent, Nash afterwards made good my deficiencies. Nevertheless, the story has, I apprehend, even yet never been fully told. To tell it should be one of the chief functions of your society. I will endeavor briefly to outline it, as I now surmise it to have been. For, with the exception of those who belonged to the ships then fishing, it is the woods, his guidance by the stars and sky, his fording the icy river, and his arrival in Plymouth just as Miles Standish was embarking for Wessagusset. Nothing can then be more picturesque, more epic in outline, than Standish's voyage, with his little company of grim, silent men in that open boat. Bent on decisive action, this skirted along the coast, and the survivors described their experience, they found the country "over cold, and in respect of that not habitable by Englishmen." At this time, as probably long before, and continuing thereafter, the Puritan colony was thus for a time at a standstill, and, indeed, it was years before the Gorges claims ceased to occasion anxiety in the Boston council chamber. More than once a royal intervention from which there was no apparent avenue of escape seemed imminent. The single possible recourse was to a trial by jury, of, perhaps, the most notorious of the sort. On the contrary, it had been preceded by a score of years; and a year ago, on the 1st day of September, 1603, the 300th anniversary was observed of the original plantation; but, as the simular, but even more abortive, experiment made by Capt. Bartholomew Goswick on the island of Cuttyhunk, at the extreme west end of the Elizabethan group, of New Bedford. Again, three years later, in August, 1607, a similar attempt was made further to the eastward, when the Poplars and Gorges plantation was established on the Kennebec. In that case, too, the adventurers did not occur actually, and, none the less, the Gorges' colony was successful. Thus, we see, at Weymouth, the Gorges attempt at a�d pre-empted by a score of years; and, a year ago, on the 1st day of September, 1603, the 300th anniversary was observed of the original plantation; but, as the simular, but even more abortive, experiment made by Capt. Bartholomew Goswick on the island of Cuttyhunk, at the extreme west end of the Elizabethan group, of New Bedford. Again, three years later, in August, 1607, a similar attempt was made further to the eastward, when the Poplars and Gorges plantation was established on the Kennebec. In that case, too, the adventurers did not occur actually, and, none the less, the Gorges' colony was successful. Thus, we see, at Weymouth, the Gorges attempt at a�d pre-empted by a score of years; and, a year ago, on the 1st day of September, 1603, the 300th anniversary was observed of the original plantation; but, as the simular, but even more abortive, experiment made by Capt. were served under the direction of Miss Edith Crocker and Miss Irene Baker. Music was furnished by an orchestra composed of William Baldwin, violin; Frank B. Joy, cornet, and C. E. Holmes, harp. Mrs. L. B. Collins was the matron. Mr. and Mrs. Baker were the recipients of a large number of gifts, prominent among them being a chair from the Jonas Perkins School association and a unique "grandfather's clock" from D. A. Gregg of Somerville. Guests were present from Somerville, Malden, Rockland, Braintree and Weymouth.

Short and Sweet.

In making preparation for marriage, more importance should be attached to accumulating patience.

Speaking of rare things: There's the home in which it makes much difference what the father wears.

Somewhat, every man thinks that the vows made at the altar are more binding on a woman than on a man.

Another argument in favor of having large families: It is possible to dispose of a watermelon at one meal.

Give the women credit for always being on time on one occasion: when they want to get a guest off on a certain train.

The day after the family return home from their vacation, Pa counts up the cost, and then the good results of the trip vanish.

Owing to the indulgence of mothers, daughters are never old enough to take charge of the kitchen till they marry and take charge of their own.

Economy in summer seems to consist largely in putting away little dabs of everything left over in the refrigerator, which are thrown out spoiled next day.

Two enemies talk for a long time and in a loud voice of what they will do to each other when they meet. They finally meet, give a feeble bark like a young lamb, and pass on.

Women are so polite to their company: They meet the company at the train, kiss her, married, single, regardless of value, fuss about paying the street car fare, seem when she suggests going home, and have an immense sigh of relief when she goes.

—Atchison (Kan.) Globe.

Do the women in the Philippines wear racy-day skirts?

It would require a pretty good-sized food to reach their skirts. Exchange.

FOR SALE.

ABOUT IT.

No. 1. Small 5-room Cottage with 1/2 acre land, in South Weymouth.

No. 2. Elegant estate in East Weymouth, just off the main street and free from dust and noise. 8 rooms, bath, electric lights, furnace; in K.O. condition inside—needs painting outside; large stable, high land \$5,000.

No. 3. One acre place at Nash, a bargain for \$2,200. 8-room, 2-story House, Poultry House, fruit trees.

Poulton—Re.

—The funeral services of Mrs. Francis M. Brown were held from her late home on Washington street last Saturday afternoon. Rev. Melvin S. Nash officiated. The services were largely attended and a large number of floral tributes testified to the esteem in which the deceased had been held. The interment was in the village cemetery. The bearers were Fred J. Harroll, T. Carlton and Edward Brown. The remains were escorted from the house to the cemetery by Arthurus Assembly No. 18, Python Sisterhood.

—The members of the social club of the Union church held their first meeting of the season in the church parlors Wednesday evening, about 100 being present. During the evening Rev. Robert H. Cochran gave a talk upon his recent European trip.

—Mrs. Dennis Burns of Front street left Friday for a visit to her daughter in San Francisco, Cal. Although 85 years of age, Mrs. Burns anticipates a pleasant trip.

Wooden Wedding.

The home of Mr. and Mrs. Burton L. Baker of Library street was the scene of a pleasant gathering Tuesday evening, when Mr. and Mrs. Baker celebrated the 40th anniversary of their marriage with a wooden wedding. The interior of the house was prettily decorated with ferns and autumn leaves and the plaza was ornamented with Japanese lanterns. Mr. and Mrs. Baker received their guests in the parlor and were assisted by Mr. and Mrs. A. A. Baker of Rockland and Mrs. Baker's mother, Miss C. E. Darow of Vermont. Miss Grace Collins, assisted by Lovell Edison was at the door. The ushers were Messrs. C. Fred Tarbox, Leon D. Collins and Andrew L. Lawrence. The dressing rooms were in charge of Miss Eddie Miller and Miss Missy O'Brien who was the custodian of the guest register. Refreshments

Casey—I see the paper that a man named Higgins at 24 Harmony court was struck by an automobile yesterday and killed.

Cassidy—My! My! but that was a narrow escape for our friend Higgins.

Cassidy—Sure, Flannery lives at 22 Harmony court—Philadelphia Press.

They had been trotting in double harness for a few miles.

Why is it asked the young wife, "that don't make me any presents like you did before we were married?"

"After acquiring a title to the property," rejoined the husband, "I naturally supposed there were no more installments to pay."—Exchange.

MOTORMEN, TAKE NOTICE!

You cannot afford to get wet through on account of a cheap oil coat. Why not buy one of our celebrated Oil Coats that we guarantee not to wet through?

**SOUTH WEYMOUTH.**

—A coupon whist party, complimentary to Henry Cleary will be held in Washington hall, Weymouth, Wednesday evening, October 12. Refreshments will be served. Admission, 25 cents.

**HAYES CONCERT.**

Miss Anna Augusta Conant, daughter of George W. Conant of Pleasant street and Mr. Henry Warren Hayes of King avenue, Weymouth were united in marriage last Saturday evening by Rev. L. W. Atwood of the Second Universalist Church. The bride was attended by Miss Abbie Barnes of Whitman and the groomsmen was Mr. Henry Kohler. Upon their return from a visit to Farmington, Maine, Mr. and Mrs. Hayes will reside at 441 Main street, where they will be at home after November 15.

—Mr. and Mrs. Archibald Wheeler of Montauk are visiting the former's sister, Mrs. Gordon Williams at her home on Main street.

Charles Turrell has returned from a two weeks' trip across the continent.

—Miss Curtis is serving on the jury at Dedham.

—Mrs. George W. Baker of East Weymouth has been engaged as soloist at the Union church.

—The members of the Fine-de-Siecle

club enjoyed an outing at Fort Point on Tuesday. A clam bake was served.

—Miss Hayes of Weymouth and suite

was followed by the regular meeting of the lodge and an official visitation was received from D. D. N. G. Anna P. Kavanaugh and suite.

—A social and supper was given in Odd Fellows hall on Monday evening by the members of Steadfast Rebekah Lodge, I. O. O. F. The committee in charge of the affair was composed of Mrs. Ida Sylvester, Mrs. Alice Ryerson, Mrs. Mary Flint and Miss Alice Young.

The social was followed by the regular meeting of the Epworth League at his home on Middle street. Members were invited and refreshments were served under the direction of Miss Marcia Litchfield.

## The President's Son

By CHARLES B. LEWIS

Copyright, 1904, by C. B. Lewis

We had been working the American mine, strained almost to the dividing line between Peru and Chile, for two years before war was declared between those two countries. No complaints had been made against us as superintendent and engineer, and I was told that the president of the mining company graduated from Yale as a mining engineer, and his father had a job ready for him. I was to be shoved back into second place for a few months until Arthur got a grip on the situation and was then to be promoted, and he was to take my place.

The president didn't say this exactly in his courteous letter notifying me that his son would arrive at Arica at a certain date and request me to meet him and give him a job. I said, "I am not the man you want." I then read between the lines and saw the handwriting on the wall. I have never been quoted as a bad natured fellow, but I was down on Arthur Graves for weeks before I got sight of him. It's only human nature to do this. I am not the sort of person of a good thing even if his father owns a controlling interest and wants his son to become practical enough to earn his own bread and butter. In my mind eye I had a picture of a lackadaisical young man with a listless expression, who was good at a game of practical mining as I did at running Vassar college. He would be half foot and half dawdler, the son of his father. He would say, "Dwear me ah!" and "I can't evawn ye know," and the mine would be to him nothing but a hole in the earth.

"I am not the hearty grip of his hand. His sister was a girl of about twenty, with fair hair, blue eyes, and a gentle manner, who stood this time with his shoulders against the office building, whistling and humming by turns, with admiration in her eyes as he cast them upon her.

"Friend of yours?" queried Graves as he gazed at the general. "I am not the sort of person you'd like to introduce to you. Pedro, the guerrilla and robber. He arrived just a minute before you, and I think he has something on his mind."

"Yes, I have," said the fellow, as he bowed to my visitors and cast a bold look at the gift. "I am here to take possession of the Americano. I am about to say so when these people come up."

"The name of which government?" I asked as I looked up the mountain side and saw at least two dozen of his bandit neighbors on the rocks with their women to hand.

"The government of Pedro, the bandit," he replied with another bow. "I have made a modest effort to keep it secret, but I have got some good men, but I know that I can induce others to work. How long will it take you to evacuate, Senior?

On three different occasions within a year I had picked up the handles of a picket or two, and the bandit leaders had decided to run things to suit themselves and any of whom could have picked up on Arthur Graves and broken him in two.

Twice during the same year bands had swooped down on the mine and destroyed the engine house, rattled five or six good boilers around me and driven them off. The cub from Yale would have swallowed his chin over it at the first shot.

It had always been the young man's ambition to defend and defend, and it didn't take me long to figure out that the Americano was in a muddle.

We had the charter from the Chileans, but they wouldn't let a little thing like that stand in the way of seizing such a valuable piece of property and destroying our rights for ever.

Arthur Graves, his name, and the idea of getting him into a blue flannel shirt and working tools into his hands made me smile.

"Friend of yours?" queried Graves as he gazed at the general. "I am not the sort of person you'd like to introduce to you. Pedro, the guerrilla and robber. He arrived just a minute before you, and I think he has something on his mind."

"Yes, I have," said the fellow, as he bowed to my visitors and cast a bold look at the gift. "I am here to take possession of the Americano. I am about to say so when these people come up."

MASS., AS SECOND-CLASS MATTER.

FRIDAY, OCT. 14, 1904.

The record for cheap management of railroads is held by Spain. There only 48 per cent of the gross earnings are spent in management.

The individual deposits in the savings banks of the country number 7,305,228. Small wonder then that the calamity how falls on so many unfeeling ears.

Capt. John W. Weeks, the Republican candidate for Congress from the twelfth Massachusetts district was nominated for the offices of alderman, mayor and congressman by the same man, Capt. George H. Hutchinson of Weymouth Newton.

Some idea of the importance of the sugar industry may be obtained when the exports to the United States alone are considered. During the year 1903, which is the latest for which statistics are available, the value of these exports from Bordeaux was \$437,225, from Nantes and its agencies, \$841,108. These exports will probably exceed this year.

The doubt that good sugar beets could be grown in the British Isles because of an insufficient amount of sunshine is said to be exploded, for we find that in the year 1903, when there were unusually cloudy, rainy and cool, there was no material difference in the analysis of the sugar beets grown in the locality referred to in comparison with preceding warm and sunny years.

Sir Thomas Holdich of England, the arbitrator of the Chile-Argentina dispute, and a prominent member of the South American arbitration, makes the following interesting statement:—"The potentiality of South America as a naval power I look upon as very great. I believe half century, at the cost of the fact that just now Argentina has sold two ships to Japan and Chile has sold a number of ships to us, there has been an increase of naval strength in South America, resulting from purely natural causes, for the defense of our own coast and the protection of our own trade routes, and it is only to be expected that the extraordinary development which we have seen during the last half century will continue."

The Newton Graphic in its issue of October 7, says definitely, "the twelfth Congressional district has reflected great credit upon itself in the recent overruling vote in favor of nominating the Hon. John W. Weeks of Newton for Congress." The prediction of the Graphic also highly creditable to Capt. Weeks' friends who have labored long and earnestly for the result. To whom else do we owe the capture of these seats? Our laborers of our friends do not occasion surprise, as Capt. Weeks is one who not only makes friends quickly, but inspires them to do their best. With a united and astute and lasting party behind him Captain Weeks will enter a Congress where we confidently expect to find new laurels to add to the already brilliant record of the 12th Massachusetts district.

In its crop report for September the Massachusetts State Board of Agriculture included a short article "Directed to Farmers and Farmers as Poultry Breeders," by John H. Robinson, editor of Farm and Poultry. In this report Mr. Robinson says: "The time has come when the farm flocks of poultry of today, due to the introduction of new breeds and indiscriminate crossing at the hands of unskilled persons, are not equal to those of the old days, but that there is not anywhere such a general uniformity and better general excellence as there is to-day, especially after two-thirds of a century of improvement."

Answering the question as to why the average fowl of today is a slight improvement over the old bird, he says: "For a period of six years ago he says that it is because the farmer is so seldom a poultry breeder. This does not indicate that farmers as a class are bad breeders, but that the farmers keep, but that the farmers produce by far the greater part of the country's supply of poultry and eggs, what they do or fail to do in regard to breeding is not nearly so important as that the rest of the country's poultry keepers do or neglect to do."

Mr. Robinson says that poultry breeding properly conducted is a science, demanding the services of a poultryman, who, however, is not necessarily a poultry breeder. He adds: "The average farmer is not necessarily a breeder of thoroughbred stock. There are, however, two serious objections to working with his stock. The first is that he takes too long to accomplish the results than by breeding from thoroughbreds, and the second that when in developing common stock one must necessarily if it is impossible to get it, to the stock he breeds on exactly similar lines. It gets a few good birds of a particular breed, but the rest are stock that he must first know what is wanted, and if not he must find out before buying, and learn it so as to be sure of his knowledge. The best way to do this is to study carefully the history of the breed desired, and the description of the 'Variety in the Standard of Perfection.' Having done this one should be able to pick from the best birds, and follow the ideal type, and if found on closer inspection to be free from serious faults they will form a good foundation stock. For that is the best advice to the amateur."

Mr. Robinson adds: "The poultry keeper, like the seller's word, but it may be verified by careful observation on a number of visits. It may take some time to get started in the way, but that is all, not to mention in event of loss of the standard breeds Mr. Robinson considers the Plymouth Rocks, Wyandottes and Rhode Island Reds to be the best, and the Orpingtons and Leghorns. Of Wyandottes he recommends the white and buff, the other varieties being at present too hard to breed to reasonable perfection. Having secured these, the farmer can add here rigidly to the fundamental rules of good breeding—first, to breed only from the best obtainable stock, and second, to give up his old birds, and start the new and food necessary to their best development. Beginning with good stock, breeding carefully and growing his fowls well, the farmer will be sure to make a sum of uniform high excellence that will be far more profitable than the old, carelessly bred stock, as well as a source of pride and honor to his farm."

The article is illustrated with a drawing of ideal birds, both male and female, of the breeds recommended.

Propos of the coming presidential election, the following figures compiled by the W. W. Wilson, were of interest to the voters of the country, showing as they do the condition of the United States of 1860 as compared with the condition of the United States of today.

Who Lincoln was first elected president in 1860, the country's population was 31,000,000, while today Mr. Roosevelt's is 80,000,000, an increase of more than 15,000,000 in 44 years.

At that time our exports were \$33,000,000 yearly, or \$10.61 per capita, while now they are \$1,467,000,000, a year, or \$17.50 per capita, or a largely increased population.

In 1860 our imports were \$35,000,000 yearly, or \$11.29 per capita, while now they are \$901,000,000 annually, or \$12.08 per capita.

At that time our national wealth was \$16,000,000,000, while now it is \$100,000,000,000, an increase in value of \$84,000,000,000.

Our public debt, less the cash in the treasury, was \$600,000,000 increased by the Civil War, \$23,000,000, while now it is \$203,000,000, a reduction since the war, of \$1,000,000,000, besides a reduction from \$118,000,000 annual interest (1870) to only \$22,000,000, a yearly saving in interest of \$95,000,000.

The regular meeting of Corps No. 102 was held Thursday afternoon and was followed by a supper and entertainment in the evening. President Mrs. R. C. Thompson, Vice-president Mrs. R. A. Morris, accompanied by about thirty members of Corps 102 attended the Norfolk County Association meeting held at Milton on Wednesday.

W. R. C. Notes.

The question has been asked—in what way are Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartic and liver pills? Our answer is:—They are easier and more pleasant to take and their effect is so gentle and so agreeable that one hardly realizes that it is produced by a medicine. Then they not only move the bowels but improve the appetite and aid the digestion. For sale \$3.25 cents per bottle at Wm. B. Webster's drug store, East Weymouth.

Jiggins—Don't you smoke? Narwhal; No; it is so cheap and common. Even the poor people can smoke. Jiggins—But you could use very expensive cigars and Narwhal—Yes, but matches are so inexpensive—Philadelphia Public Ledger.

Better Than Palms.

Chamberlain's Stomach and Liver Tablets absolutely cure Rheumatism & Neuralgia. Entirely vegetable. Safe

## BURGLARS HAD BUSY NIGHT

Made Six Breaks In East Weymouth. Police Make an Arrest.

Sometime between sunset Sunday evening and sunrise Monday morning burglars broke into the East Weymouth Savings bank, Webster's drug store, 514 Main Street, Hale's carpenter shop in Jackson Square, William Tichen's waiting room, the railroad station, and the home of Frank Malin on Madison street. The breaks were evidently the work of amateurs.

At the bank entrance was gained by breaking a large pane of glass in the front door, the drawers in the counter and desks were opened and ransacked. The stamp draw was broken and about a dozen's worth of stamps and small change taken. A "thief's" mark was on the account which had been closed, was taken from a pile on the counter.

At Webster's drug store, the thief broke a window, using a signet ring from the Methodist Episcopal Church yard opposite. About ten pounds of candy were taken from the window, but the door was not entered.

At Hale's carpenter shop a hammer with which the other breaks were evidently made.

At the railroad station, the burglar

went through the cellar and the cash register was broken.

Evidently the break at the railroad station was the first one made. Here a slot machine was taken and carried off the track where it was broken open. The money contained but a very small amount of coins.

When the glass at Webster's was broken, Edward Hunt was living in the house, and he was unable to identify the thief.

Chief Fitzgerald and Inspector Butler were on the case all day Monday and in the evening, Inspector Butler arrested a man named John T. Tichen, of Jackson Square, who was taken to the lockup and searched.

At Webster's drug store, the thief

had taken a signet ring and substituted his own and had also added some figures.

In the railroad station, Tuesday morning, the burglar, armed with a crowbar and a hammer, and with entering and leaving the building, was captured by the police.

## WEYMOUTH GAZETTE.

PUBLISHED EVERY FRIDAY BY THE  
GAZETTE PUBLISHING COMPANY,  
(Mass. Corporation.)  
WEYMOUTH, - MASS.

CHARLES H. WILLOBY,  
Manager and Editor.

ENTERED AT THE POST OFFICE AT WEYMOUTH  
UNDER THE POST-CARD LAW.

FRIDAY, OCT. 21, 1904.

The Washington Post tersely remarks that the fellow who rocked the boat last summer is now hunting deer up in the Adirondacks.

A new railroad, planned to scale Grays Peak near Dillon, Colorado, will attain a height of at least two hundred feet greater than the road which climbs Pike's Peak.

"Now and then a woman will marry a man because the other girl wanted him and then she will wish the other had him." Thus soliloquizes the Pompeon in the Albany Times-Union.

The British government is experimenting with a new torpedo for destroying submarine mines. Its mechanism is such that, if it misses the mine, it will be fired at Alaska. There is nothing backward about Uncle Sam.

The value of manufactures entering international markets of the world amounts to about \$4,000,000,000 annually, of which about \$3,000,000,000 is supplied by the United Kingdom, Germany, France and the United States.

A valuable deposit of iron ore has been discovered east of Port Arthur, on the shore of Lake Superior. It is considered to be as good as the deposits of the Mesabi Range, which have been so productive of iron ore in Minnesota.

The coreless apple from the United States and Canada is the latest sensation in the fruit markets of England. Specimens of the new fruit are expected to arrive before the end of the year, and orders for trees are pouring in from all quarters.

Competition for foreign trade between the different nations of the world is causing both manufacturers to make increasing demands upon their consular offices for reliable information regarding nearly every line of commercial and industrial activity.

Any citizen who changes his place of residence between now and Tuesday, November 8, must forfeit his right to vote at the polls on that date. The law requires that every voter shall have been for thirty days a resident of the district in which he would vote.

Statistics show that the working man in a Massachusetts factory receives twenty-seven per cent. of what he produces, while the laborer in South Carolina receives but nineteen per cent. Notwithstanding this, the Massachusetts laborer produces \$1.15 more for his employer annually than his South Carolina brother.

With better knowledge and more extended search in Alaska, the United States may again include in among its important metallic products. Lode has been found in the Lost River district, about thirty miles east of Cape Prince of Wales. Prospecting is now being done in that locality, and the outlook seems favorable.

Grain men and millers to the number of more than three hundred report that the aggregate yield of wheat in Kansas, Nebraska, Oklahoma and Indian Territory will fall 55,000,000 bushels below last year's yield. The reports from Kansas alone, show a decrease of 36,000,000 bushels, due to excessive rains during and after harvest.

The twentieth century will go down in history as a century of leap years, as the greatest possible number of such years will occur therein. The present year is the first one and every fourth year up to and including the year 2,000 will be a leap year. In the same century the month of February will three times have five Sundays—1920, 1948 and 1976.

The erection of a "skyscraper" school with accommodations for from 7,500 to 8,000 pupils is to be begun on the lower Eastside, New York, in the course of the next few months. When completed, it will be not only the first schoolhouse of its type, but also by far the largest elementary school in the world. It is to be sincerely hoped that this type of schoolhouse will not prove popular.

Information from a French source is to the effect that a coal trust is being formed in Spain, with the distinct object of dispensing with the supplies received from Great Britain. The plan is to amalgamate all the coal mines of Spain under one management, with a capital of about \$40,000,000. In the year 1903 these mines produced 2,700,000 tons of coal. The consumption for that year was 5,500,000 tons, Great Britain supplying the deficit.

According to the first official financial statement made by the management of the St. Louis exposition, the total number of paid admissions up to October 1 was 7,705,686 and the total number of free admissions was 4,692,507. This enormous proportion of free admissions may have been absolutely necessary, but it's a large measure responsible for the failure of the exposition from a financial stand-point.

According to returns collected by the Iron Age, the total production of pig-iron in the United States at the end of September was 309,946 tons, compared with 291,573 tons a month ago and 333,600 tons a year ago. At the same time furnace stocks of iron have decreased from 630,801 tons a month ago to 557,447 tons, indicating that consumption of iron has been decreasing more rapidly than production.

The Department of Agriculture proposes an endeavor to control the cotton boll weevil at the gins. Investigation by agents of the department in connection

with the Louisiana pest commission indicates that the practice of Texas farmers of ginning seed cotton in Louisiana gins has infested new districts in Louisiana, and that no present methods or machines for ginning cotton can be depended upon to destroy the weevil.

### FACTORY WANTED.

**Show Firm Would locate in Weymouth  
Provided Suitable Factory Could be Secured.**

An established firm is seeking a location in Weymouth or some other town for the manufacture of shoes. The firm wishes to hire an equipped factory and will employ from one hundred to one hundred and fifty men. There are several suitable factories in this town, any one of which would be acceptable to the members of the firm. The equipment of one of these factories would necessitate an expenditure of \$5,000 per month.

**HERE IN WEYMOUTH ANY PUBLIC SPIRITED CITIZENS WHO,**

**SHOULD UNDERTAKE TO EQUIP ONE OF THESE FACTORIES FOR A SUITABLE RENTAL?** Any persons interested in the matter are requested to consult with the Editor of the GAZETTE

### HIGH SCHOOL NOTES.

Mrs. Ellen M. Spinyer '96 spent Monday at the school. It would be a good plan for more of the parents to visit the school and see what their sons and daughters are, or are not doing. The teachers are always glad to see visitors, and they would find it very interesting.

Football game this afternoon: Higham high at Higham.

Walter L. Haymond '04 was a visitor at the school last Friday.

Plans are being made for another entertainment to be held about the middle of November for the purpose of clearing the debt on the piano which was installed last year. To accomplish this, we need the loyal support of the townspeople, whom we hope they will give us on that occasion.

The freshman girls who intend to play basket ball have selected their suits which will be brown and white. With the large number out, there should be the making of two strong teams.

The bi-monthly examinations are at hand. The first report is due Oct. 31.

A new plan for rations will be carried out this year. Instead of assembling in the hall on Fridays as has been the usual custom, the different classes will have exercises in their respective rooms. Different subjects will be taken up for discussion, and an occasional debate will be good practice for the pupils, who thereby gain confidence in themselves.

This plan by Mr. Sampson, who discussed it with the different classes, met with great approval by the pupils.

Through the kindness of Mr. Twelker, manager, the football team was photographed last Tuesday. Mr. Twelker has considerable time outside of school hours in developing pictures to supply the demand for them.

Francis White '04 has entered Bryant & Stratton's Commercial school.

HART '07.

**Daughters of the Revolution.**

The twenty-first annual meeting of the Women's Home Missionary Association will be held in the First Congregational Church on Wednesday, October 26, 1904, at 10 o'clock a. m. and 2 o'clock p. m.

Reports will be read and the election of officers will take place.

Guests will include President Caroline Hazard, Mrs. J. W. Dunlop, Mrs. C. L. Goodell, Mrs. A. G. West, Rev. George L. Todd, President Charles Cuthbert Hall.

**TUFTS LIBRARY.**

**Sora—The books will be ready for delivery at the Sora Library Saturday following the issue of the Gazette containing the list.**

Adams, B.—The new experiments in the field of electrical hydroelectric methods, with the consolidated and dissipated forms of those administrative and technical publications.

Eastman, Henry—New England farms and country life, an easy method of determining the species.

Fraser, W. D.—Ornamental plants.

Heads, eastern rigs and car-

pet, saddle bags, mats and pillows, etc., together with some practical advice to collectors.

Fitzgerald, John—A career, a novel.

Gilmour, S. N.—Methods of industrial peace.

Goldschmidt, the relation of employer and employee, especially in the case of the Board of Agriculture with the exception of the gipsy moth.

Mrs. Charles Dickerman of Philadelphia, Pa., is visiting her sister, Mrs. William Lane of Baker avenue.

Mrs. C. E. Britton has been visiting relatives in Boston Oct. 25th, with Miss Mary L. Crosson. Subject for the evening, "The Importance of a Coat," by Rev. William Hyde. Quotations appropriate to the subject.

—Cont'd. Monogrammed card of invitation to the meeting, Thursday night.

—Orleton Brown of Washington street has entered upon a course of study at Bryan's Stratton's Commercial school, Boston.

—John J. Preston has returned to New Haven, Connecticut, after a week's vacation at his home on Hayward street.

—The ladies of Trinity church are arranging for their annual Halloween party to be held Monday evening Oct. 31st.

—We have just received an invoice of pocket knives and can sell you one from 25c. up to \$1.00—Weymouth Pharmacy.

—Rev. Frank J. Crosson went to South Park last Saturday evening and made an address at the annual reunion of the Park Street Baptist church.

—Sermom subjects at the Baptist church next Sunday: Morning—"The Sabbath of Rest"; Evening—"The Sabbath of Work." Sun. U. P. 3-18-20; Evening—"Man's Terribleness, Man's Deception, God's Destruction" (Jeremiah 49: 16).

—The members of the church will attend the annual meetings of the Baptist Tuesday to Thursday.

—The members of the Ladies' Auxiliary to Division No. 6, A. O. U., are to hold a harvest party and supper at Clapp's hall this evening.

—Foggs & Parmenter, proprietors of Beck's Expert Co., have purchased the new building at 100 Main street.

—Miss Madge Pierce of New York is visiting her parents, Major and Mrs. E. C. Pierce of Commercial street.

—Supervisor of the street department has greatly improved the condition of Front street during the past week.

—Selection Hayward of East Braintree attended the sidewalk from the Shaw street railroad crossing to J. F. Shepard & Sons' office.

—A class of about 120 pupils will be confirmed at the Church of the Second Heart, morning tomorrow.

—Wiring, repairing and electrical work of all kinds promptly and properly executed by Edward Linton, Commercial street.

—Edward Vinton has taken up his residence at the Kingman estate on Sumner street.

—Mrs. J. E. Trask of Walant avenue died at Waterston of pneumonia, Oct. 20, aged 67 years, 5 months and 25 days.

—Mrs. Trask was a native of West Gardner, Maine, and the remains will be buried in her home town. She is survived by a husband, a brother and two sisters.

—She was highly esteemed by a large circle of friends in Weymouth.

—Lewis Cushing is confined to his bed.

—A pleasant evening was passed last week. A pleasant gathering was held at the home of Mr. and Mrs. John Aldrich of Front street.

—Miss Vining, daughter of Mr. and Mrs. Seth Vining of Central street, entertained a number of friends at a birthday party, Thursday evening of last week. A pleasant evening was passed last week. A pleasant gathering was held at the home of Mr. and Mrs. John Aldrich of Front street.

—Miss Vining, daughter of Mr. and Mrs. Seth Vining of Central street, entertained a number of friends at a birthday party, Thursday evening of last week. A pleasant evening was passed last week. A pleasant gathering was held at the home of Mr. and Mrs. John Aldrich of Front street.

Commonwealth of Massachusetts.

NORFOLK, SS. PROBATE COURT.—TO the heirs, next-of-kin, and all others personally interested in the estate of LEWIS A. BEALS, late of Weymouth, in said County, deceased:—That you will cause to be laid the will and testaments of said deceased before the Probate Court of this Commonwealth, at the Probate Court to be held at Quincy, in said County of Norfolk, on the ninth day of April, next, at 10 o'clock A.M., and if you do not desire to have the formalities to show cause, if any, if you have, why the same should not be granted.

Attest, J. H. Flinn, Esquire, Judge of said Court, at Weymouth, in said County, before said Court.

Witness, J. H. Flinn, Esquire, Judge of said Court, the second day of October, in the year of our Lord one thousand nine hundred and four.

JOHN D. COBB, Register.

## PREVALENT OPINION.

(From the Brooklyn Times.)

An abundance of literature and opportunities for education are among the mightiest safeguards of a people. These are America's greatest advantages, and if the time should ever come (as it has come to other nations) when pride of pedigree or power shall carry a neglect of the privilege these safeguards offer, then we be lost. This is not intended as a pessimistic pronouncement, but the mark is called forth by the intimation of conditions elevated by one of the periodical reviews of European literature in which he comes from time to time to the Royal Université de Paris, and to which the Literary Digest refers. According to the writer of the review, the Spanish aristocracy, bourgeoisie, and almost all the Spanish people live today in a state of astounding ignorance."

It would appear from the article in question that there has been little or no change in Spain since nearly half a century ago. Larra, the publicist, declared that no one read in Spain because no one wrote, and that no one wrote because no one read. The lack in Spanish literature today is attributed by the French writer to the poor state of education in Spain. The school system is said to be reasonably inadequate. Provincial Boards of Education are badly managed, and ill provided for, and the free institutions do not meet the needs.

In those schools the exception of a few, large collections conducted by Jesuits, the educational services are mere parades, arranged for the gratification of vanity of parents." The educational outlook in Spain, according to the French writer, is not very creditable to the nation.

But it is not outsiders alone who note these conditions, and their existence is deplored by Spaniards themselves. Dr. Eloy Luis Andre is authority for the statement that in Spain "books, reviews and newspapers all show an equal lack of invention, originality, solidity and depth," and Dr. F. Navarro y Ledesma, in a recent number of *La Lecture*, declared: "We have come to the extreme limit of our intellectual, political, social and literary poverty. There is nothing in Spain that anywhere. This is indeed a state of affairs of a country with such a glorious past, as history accredits to Spain." But glory and honour have proved too much for nations, as well as for individuals, and after all a nation is as a sort of aggregated personal ego.

A glorious past should never be allowed to take the place of a glorious present. Nations no more than individuals can maintain their prestige with past records. Pride and the haughty spirit are still pretty sure forerunners of a humiliating fall. A judicious infusion of them is excellent for the life and character of any people. Pedigree is also a good thing, but only so far as its vitality can be brought down to date.

**Agriculture and Finance.**

(From the Forum.)

If the single cause of the loss of general by England were its location through the Transvaal war, we should have reason to look for speedy reumption of its old position. Indeed, such return to the status quo ought to be expected by many experienced observers when the Boer war closed. In my judgment the strain and expense of war were not the primary causes. They were highly aggravating incidents, but no more. I believe that the rational theory of this striking transformation, and of the present somewhat bewildering position, lies in the larger problem of the relation of agricultural producers to consumers, America being typical among the rest. The other "Agricultural depression" of a period of excessive supply, made quite as much, if not more, commercially unsuccessful as the preceding one, and was caused by the same forces that caused the former to show itself, if any, if any, have, why the same should not be granted.

Attest, J. H. Flinn, Esquire, Judge of said Court, the second day of October, in the year of our Lord one thousand nine hundred and four.

JOHN D. COBB, Register.

## BONE FOOD

Soft and crooked bones mean bad feeding. Call the disease rickets if you want to. The growing child must eat the right food for growth. Bones must have bone food, blood must have blood food and so on through the list.

Scott's Emulsion is the right treatment for soft bones in children. Little doses everyday give the stiffness and shape that healthy bones should have.

Bow legs become straighter, loose joints grow stronger and firmness comes to the soft heads.

Wrong food caused the trouble. Right food will cure it. In thousands of cases Scott's Emulsion has proved to be the right food for soft bones in childhood.

Sold for free sample.

in all these schools the girls made a still more favourable showing.

Another form of test was as to the percentage of honor marks, or "high standing," received by the two sexes. Here the girls were uniformly ahead.

Secondary schools the percentage of high marks for boys and girls respectively was, in mother tongue, 23.6 and 32.3; in arithmetic, 28. and 37.3; in geography, 22.9 and 36.9.

In the higher elementary schools the girls did still better, and for our grade Dr. de Korosy showed their percentages of honours to be from three to four times as great as the percentage for the boys.

It is not necessarily safe to argue from Hungary to America, nor even from children to adults, but such a showing as this cannot fail to shake the convictions of many old-fashioned believers in the mental superiority of the male sex.

The average actress would rather lose her diamonds than her press notices.

A woman never learns the true value of a kind word until after she is married.

A woman may be able to saw wood, but when it comes to saying nothing—well, that's another story.

When a man's friends hear he has had an attack of insanity they hope for later intelligence.

Many an actor who gets \$300 per week in the press reports is lucky to draw \$30 in real money.

Instead of spending his money for necessities the rich man can invest it in bonds and live on luxuries.

When a man reaches the end of his argument he offers to bet—but he is seldom willing to put up real money.

It sometimes happens that a girl gets mad because a young man is unable to explain why he loves her more than other girls.—Chicago Daily News.

REFLECTIONS OF A SPINSTER.

All the world is a stage, and, to hear most men talk, you would think they were stage managers.

It's only the people who have never been married or who are satisfied with their choice who don't believe in divorce.

Somehow a really intoxicated man that one can see for nothing hasn't the humor about him that comes with the stage drama that one can see for so much an drunk chair.

When some men tell a girl the story of his life it might be described a little more graphically, if not by a more lifelike term.

There is no place where the news of the day is so engrossing to some men as in a crowded street car, where some of the standing population are women.

When some man promises to make the girl happy, when he's married, he thinks it's her bounden duty to work real hard to make him happy; probably he thinks he fulfilled his promise when he married her.

A woman acknowledges her ability to get old by thinking about her age, but a man believes he is young as long as he is clever and charming no matter what his years.

A faint heart never won fair lady, nor, indeed, won out in any game, where bluff is needed.

A woman always gets a little suspicion when her husband develops a great admiration for her last year's gown when it's time to get a new one.

It's very difficult to believe in romance after seeing the way some men don't help their wives on the street car.

Very few men like to be reminded of their courtship, as it reminds them how unattractive they can be, women like to think of it, as they find comfort in remembering the time they were happy.

All the world loves a lover, but there are few who delight in buying a wedding present for him.—Baltimore American.

There is room for improvement in the use of our language and style in most of our papers. But what we want is good, honest, correct English. Rev. Bill Nye, I think, who said that it was asking too much of the newspaper man to write literature at the rate of three yards an hour.

"Our newspapers are sometimes criticized on the grounds that they are immoral, but I have no sympathy with such wholesome complaints.

The fact is that the local press of the country is of these by no means the least important from an educational standpoint, is the local paper. It is the most regular and persistent visitor that probably the majority of our homes have, and herein lies its potency. We are influenced most by those things which are most familiar to us. In accordance with the principle, educators endeavor to surround the young in our school rooms with greater pictures and noble stories, and to acquaint them with the best in literature. Here I have my first suggestion. You cannot afford to neglect the appearance, the general makeup, of your papers; not that the local paper should be an art magazine, but it can be printed on good paper with good ink and clean type. In other words it can be an artistic newspaper, and the matter it contains can be systematically arranged, thereby cultivating a sense of the clear and orderly habits of thought in the individual reader.

A woman acknowledges her ability to get old by thinking about her age, but a man believes he is young as long as he is clever and charming no matter what his years.

There is no place where the news of the day is so engrossing to some men as in a crowded street car, where some of the standing population are women.

When some man promises to make the girl happy, when he's married, he thinks it's her bounden duty to work real hard to make him happy; probably he thinks he fulfilled his promise when he married her.

A woman acknowledges her ability to get old by thinking about her age, but a man believes he is young as long as he is clever and charming no matter what his years.

Very few men like to be reminded of their courtship, as it reminds them how unattractive they can be, women like to think of it, as they find comfort in remembering the time they were happy.

All the world loves a lover, but there are few who delight in buying a wedding present for him.—Baltimore American.

There is room for improvement in the use of our language and style in most of our papers. But what we want is good, honest, correct English. Rev. Bill Nye, I think, who said that it was asking too much of the newspaper man to write literature at the rate of three yards an hour.

"Our newspapers are sometimes criticized on the grounds that they are immoral, but I have no sympathy with such wholesome complaints.

The fact is that the local press of the country is of these by no means the least important from an educational standpoint, is the local paper. It is the most regular and persistent visitor that probably the majority of our homes have, and herein lies its potency. We are influenced most by those things which are most familiar to us. In accordance with the principle, educators endeavor to surround the young in our school rooms with greater pictures and noble stories, and to acquaint them with the best in literature. Here I have my first suggestion. You cannot afford to neglect the appearance, the general makeup, of your papers; not that the local paper should be an art magazine, but it can be printed on good paper with good ink and clean type. In other words it can be an artistic newspaper, and the matter it contains can be systematically arranged, thereby cultivating a sense of the clear and orderly habits of thought in the individual reader.

A woman acknowledges her ability to get old by thinking about her age, but a man believes he is young as long as he is clever and charming no matter what his years.

There is no place where the news of the day is so engrossing to some men as in a crowded street car, where some of the standing population are women.

When some man promises to make the girl happy, when he's married, he thinks it's her bounden duty to work real hard to make him happy; probably he thinks he fulfilled his promise when he married her.

## WEYMOUTH GAZETTE.

PUBLISHED EVERY FRIDAY BY THE  
GAZETTE PUBLISHING COMPANY,  
(MASS. CORPORATION.)

WEYMOUTH, MASS.  
CHARLES H. WILLOBY,  
Manager and Editor.

ENTR'D AT THE POST OFFICE AT WEYMOUTH  
MASS., 2D CLASS MAIL MATTER.

FRIDAY, OCT. 28, 1904.

Citizens of Weymouth, register tomorrow.

The combined navies of the world include 500 battleships, 471 cruisers, 1,255 gunboats and 1,600 torpedo craft.

Each and every neglect to register means a vote lost. There is no loss in Weymouth who can afford to neglect this duty.

Whatever may be said of the several candidates in the political campaign in this country, it cannot be denied that Kropotkin is running well in his own little contest.

The United States employed 10,555 men in distributing mail last year. The cost, distributed among 1,400 towns, was \$65,364,000. In 75 accidents to mail cars, 18 clerks were killed and 78 seriously injured.

The telephone industry in the United States represents a capital of more than \$15,000,000 covering more than 4,000 systems, with 2,315,297 telephones of all kinds, while during the year 1902, were exchanged more than 5,000,000 conversations.

The assertion is made by a sculptor of prominence that the human foot is becoming smaller. The masculine foot of twenty centuries ago was about twelve inches in length. The foot of the average man of the twentieth century is comfortable in an 8 1/2 shoe, which is about 10 7/8 inches in length.

Irrigation, by the use of artesian wells, is being completed with great success in the San Luis valley, Colorado. Pumping plants also are being established throughout the valleys for the purpose of raising the upflow to the surface, and thus many hundreds of acres of hitherto worthless land are being reclaimed.

The railroads of the United States transported 650,000,000 passengers during the last fiscal year, an increase of about 45,000,000 over the preceding year. This is equivalent to more than eight rides for every man, woman and child in the country, and this fact emphasizes the importance of providing safe methods of travel.

When the transformation of cities by electric power and light has been completed, we expect the site to be practically as pure as that of the country. It is estimated that the carbons sold and exhaled annually by the people of New York city is about 45,000 but that this is less than three per cent of that from fuel combustion.

Six hundred and thirty-seven million bushels is the average wheat crop of the United States. This is one-fifth of the entire world's output and enough wheat, made into bread, to provide one and one-third loaves for every inhabitant of this country daily for one year; enough wheat made into loaves twelve inches long, to girdle the earth.

The report of the commissioner general of emigration states that from September of the year 1901, to March, 1904, more than 162,000 emigrants left Italy for North and South American ports with prepaid tickets, that is, tickets received from relatives or friends abroad. The proportion of prepaid tickets is twenty-five per cent of the total number.

According to an exchange a few weeks was seen recently in Jamestown, N. Y., and to all appearances was doing a flourishing business in campaign buttons, but he was grumbling amazingly. A bystander asks "What's the matter—you seem to be doing a good business?" "Yas, dot Rosengart was all right, but that Barker, I got stuck on him."

Last year 1,029,000 harvesting machines were sold in the United States, and of this number 225,000 were binders. These machines went to every wheat-producing country in the world, for the sun never sets on American farm machines. Most of them, however, are now being used in our own country, for the agricultural expansion of the United States has followed the path of farm machines.

A small silk-embroidery industry has been developed in the United States by Swiss emigrants. It supplies the wants arising from quick sales in fashionable articles in the height of the season, when there is no time for new orders to be filled from Europe. In the United States the capable embroiderer easily earns \$5 to \$6 per day, while his Swiss competitor earns \$1.

The man who does not regularly read his home paper is subject to sympathetic. He is very much like a man without a coat. He is like a homeless cow that has no regular grazing place, but wanders about the country feeding on weeds and brambles. No matter how many other papers a man may read, he should always be a subscriber to the home paper. There is one home paper in Weymouth, the Gazette, established nearly forty years ago. It guarantees readers for advertisers and news for readers.

Not quite half a century has passed since Col. Drake made his discovery of petroleum on the waters of oil creek, near Titusville, Pennsylvania, yet the total production of crude petroleum from the years 1859 to 1902, has been less than 1,165,280,727 barrels. Of this output 33.9 per cent was contributed by the states of Pennsylvania and New York; Ohio contributed 21.4 per cent; West Virginia 11.3 per cent; Indiana 9.9 per cent; California, 5.6 per cent and Texas, 2.1 per cent.

The customs department of Canada has promulgated regulations giving effect to the anti-dumping clause of the tariff, as already announced. When goods of a class manufactured or produced in Canada are sold at slaughter prices in the Dominion, there will be levied, in addition to the ordinary customs duty, a special duty equal to the difference between the selling price in Canada and the fair market value for home consumption in the country of export. Such special duty is not, however, to exceed one-half of the ordinary customs duty.

Take a silver dollar, drop it on a table and you will notice a ring. Keep the ring yourself or give it to a friend; send

the dollar to the Gazette office, and the Gazette will be sent to your address for six whole months. Another interesting experiment consists in taking a new two dollar note, folding it several times and then unfolding it and noticing the creases. Use these creases for your Sunday trousers and send us the two-dollar note. That will give you the Gazette for one year. This trick can be most easily accomplished sixty seconds after you have come into possession of the note.

Thousands upon thousands of barrels of grain will decay on the ground this year because it will not pay the growers to gather them. Notwithstanding this fact, however, the families who will have as many apples as they can use during the coming winter will be in minority. The apple is the best winter fruit grown, the best to eat raw and by far the best to use in cooking. An apple crop the size of the present one is rare occurrence and it is a great pity that the whole of this year's crop can not be harvested and marketed. Many growers are willing to give their apples away, but the coopers and transportation companies to date, have expressed no such willingness.

### LAST DAY TO REGISTER.

Tomorrow will be the last day of registration. It will be positively the last chance for citizens to place their names on the voting lists.

Any citizen whose name is not on the voting lists by ten o'clock tomorrow night will not be allowed to vote.

Those who have not yet registered must do so tomorrow, Saturday, Oct. 29.

Do not fail to have your name on the voting lists this fall.

Register tomorrow at the town offices at the Savings bank building, East Weymouth.

### IS NOW SUPERINTENDENT.

Weymouth Man Who Went to Philippines as Teacher, Receives Advancement.

Joseph W. Marion, a former resident of Weymouth, and who went to the Phillipine Islands some three years ago as a teacher, is now superintendent of schools at Vigan. All the school in Vigan, which includes Caaoyan, Bantay, San Vicente and Santa Catalina, are under the direct supervision of Mr. Marion. There are thirty schools and sixty teachers in the district.

John F. Daley of Foye avenue met Mr. Marion at Vigan during the former's period of military service in the Philippines and they have since kept up a regular correspondence. The following photograph of Mr. Marion was received by Mr. Daley a short time ago:

JOSEPH W. MARION.  
Supt. of Schools at Vigan, P. I.

### Precinct Officers.

The following have been appointed by the committee to serve as precinct officers on election day, November 8, 1904—  
Precinct 1.  
Warden, James B. French; deputy warden, Frank J. Richards; clerk, Walter L. Jenkins; deputy clerk, Joshua P. Holbrook; inspectors—Josiah H. Pratt, John A. Holbrook, George Ruggles, Anel Burrell; deputy inspectors—David Danbar, John F. Blinney; ballot box constables—B. F. Richards, Isaac H. Walker; Precinct 2.  
Warden, Charles J. McCormay; deputy warden, John V. Powers; clerk, Charles W. Joy; deputy clerk, Edwin S. Bradford; inspectors—Thomas B. Loudon, Q. S. Litchfield, Frank R. Raymond, George A. Metcalf; deputy inspectors—Albert C. Burrell, Cyrus E. Raymond; ballot box constables—Asa B. Pratt, Arthur H. Pratt; Precinct 3.  
Warden, William S. Wallace; deputy warden, Owen L. Greely; clerk, Jacob Dexheimer; deputy clerk, Jessie H. Pierce; inspectors—William H. Wall, James A. Pray, J. Rupert Walsh, Abner E. Tilden; deputy inspectors—Charles E. Whitten, Burton F. Johnson; ballot box constables—Oliver Houghton, Thomas Fitzgerald; Precinct 4.  
Warden, Thomas H. Melville; deputy warden, Fred M. Hawes; clerk, J. Ellis Gardner; deputy clerk, Thomas V. Nash; inspectors—Adolphus P. Poole, Clarence F. Fearing, Edward Howley, William T. Spillett; deputy inspectors—Daniel J. Bresnahan, John W. Sculley; ballot box constables—George B. Bailey, Allen Charles C. French; Precinct 5.  
Warden, Lawrence A. Blanchard; deputy warden, Henry Rockwood; clerk, John F. Welch; deputy clerk, Leonard V. Tiffey; inspectors—J. Clifford Ford, George H. Shaw, Matthew O'Dowd, Clarence H. Summer; deputy inspectors—M. Sanford Orcutt, John Reddy; ballot box constables—Michael Allen, Charles C. French; Precinct 6.  
Warden, Clayton B. Merchant; deputy warden, Joseph A. Cushing; clerk, Dennis J. Smith; inspectors—Edwards F. Allen, Henry T. McIntosh, Arthur J. Hayes, Arthur L. Blanchard; deputy inspectors—Thomas A. Lynch, Charles J. Scott; ballot box constables—Nathaniel B. Peare, Patrick Butler.

### THE GOVERNMENT OF A TOWN.

Do the citizens govern a town? I was told the other night that the whole policy of our town was all figured out and arranged for at a certain point. Now, no doubt, a great part of it is definitely a "tale." Yet within my knowledge there is where everything is prearranged in the sense that there are some discussions, but as a general thing, by the time the causes and elections are held, these discussions are done away with. And do you know that I think the men who comprise the clubs are right in attempting to govern the government of their town, for they have the time, in their club life, to go over each question pro and con. They are not in the midst of political animosities.

They are able to look at things with a calm eye. Then again, you know that in order to be a power in a club, a man must be a pretty good sort of a fellow. What say?

### MEANNESS.

Heard a story the other day that I thought was the limit. It seems that a man and woman had been married for several generations and during that time they had both worked hard. Had brought up a family of children and had scrimped and saved, yet in all of that time had never made his wife a present.

Something brought it to his mind and he pondered over it and said to himself, "yes, it is true, I have never bought her a single present and I should have a good many times but I never thought of it." This time he did think of it but was hard work to find a suitable gift, so he finally ran across a land sale and bought his wife two lots of land, at least he bought them for her and had the deed made out in her name. There were two lots were burial lots in a cemetery.

### Precinct 6.

Warden, Clayton B. Merchant; deputy warden, Joseph A. Cushing; clerk, Dennis J. Smith; inspectors—Edwards F. Allen, Henry T. McIntosh, Arthur J. Hayes, Arthur L. Blanchard; deputy inspectors—Thomas A. Lynch, Charles J. Scott; ballot box constables—Nathaniel B. Peare, Patrick Butler.

### SAYLES.

The world don't ask by what road we came so long as we "get" there.

Circumstances do not make men. They discover them.

Look out for the man who is practicing in hunting. He is looking for the "hunting" hole.

The happiness of duty is in every creed but the duty of happiness we never heed.

A fellow feeling may be right so long as the fellow is not feeling for our pocket-book.

There has of late been a decline in all agricultural products except wild oats.

True faith never goes home until it gets what it is after.

It is too bad that a man never gains anything foresight until he is too old to have anything to look forward to.

The best prophet of the future is past.

Some men of small calibre are awful big bows.

Experience was never meant for fools.

A man's temper improves by disuse.

The CHITTEREE.

If troubled with a weak digestion try Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartics and liver pills? Our answer is—They are easier and more pleasant to take and their effect is so gentle and so agreeable that one hardly realizes that it is produced by a medicine. They are not only move the bowels but improve the appetite and aid the digestion. For sale at 25 cents per cent at Wm B. Webster's drug store, East Weymouth.

Better Than Pills.

The question has been asked—in what way is Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartics and liver pills? Our answer is—They are easier and more pleasant to take and their effect is so gentle and so agreeable that one hardly realizes that it is produced by a medicine.

They are not only move the bowels but improve the appetite and aid the digestion. For sale at 25 cents per cent at Wm B. Webster's drug store, East Weymouth.

If troubled with a weak digestion try Chamberlain's Stomach and Liver Tablets. They will do you good. For sale at Wm B. Webster's drug store, E. Weymouth.

The CHITTEREE.

Weymouth, Thirty Years Later.  
(By Chas. Francis Adams. (Concluded)

"Not long ago, in Lincoln, where I now live, I expressed myself on this subject to the same effect; and I afterwards found it, in so doing, had a sharp pain, as well as surprise, I had seemed to speak depreciatingly of which was sacred. Nothing could have been further from my thought. The criticism I then made applies to all of our Massachusetts, I may say our New England, towns. Their records tell me the same story. Turn to your own town books, covering those heroic periods, whether of the Revolution or of the Civil war. Should you do so, you will find in them a wearisome repetition of calls for men, grimly responded to by votes providing for the payment of bounties, and complicated plans for the procurement of substitutes. In the first flush of excitement, volunteers, in each case, enrolled themselves in crowds, they were eager to get to the front; but then came the cold reality of the work-house, and when men died faster in the towns, and when men died faster in the lanes of our towns than they now die on the coast of Guinea. . . . There is scarcely a page of the history or literature of the seventeenth century which does not contain a record that our ancestors were less human and more peevish, less disciplined of private families, though not more efficient than present, was probably harsher. Masters, well born and bred, were in the habit of beating their servants. Pedagogues knew of no way of imparting knowledge but by beating their pupils. Husband, of decent station, were not afraid to beat their wives.

The more carefully we examine the history of the past, the more reason shall we find to dissent from those who imagine that our age has been fruitful of social evils.

The truth is that the evils are with scarcely an exception, old.

Submit, in these industrial, economic, social, religious and educational phases, the trial of study and accumulation,

the mass which preceded the confirmation service was by Rev. John Murphy.

Bishop Brady Administers Rite of Confirmation to Class Composed of Children From Two Parishes.

Rt. Rev. John J. Brady, auxiliary bishop of Boston, administered the rite of confirmation to a class of 137 at the church of the Sacred Heart last Saturday morning.

The class was composed of children from the Sacred Heart parish and from the parish of St. Francis Xavier of South Weymouth.

The mass which preceded the confirmation service was sung by Rev. John Murphy. Bishop Brady then presided in the class in the administration of Confirmation, and administered the sacrament, being assisted by Rev. J. B. Holland and Rev. J. J. Murphy. The music was furnished by the church choir under the direction of Mrs. John Hanley, organist.

The candidates confirmed were:

Annie T. Hanson, Simon H. Delony, Anna M. Murray, Annie L. O'Brien, Emma DeLaney, Anna Dwyer, Mary A. O'Brien, Martha F. Rogers, Mary L. Murphy, Margaret McNamee, Agnes V. Healey, Michael A. McNamee, Edward L. Madden, Francis R. Hogan, John W. Murphy, John L. Hackett, John H. Cullen, James P. Halloran, Henry J. Maden, Helen M. Dowd, Lillian M. Durusha, Bertha F. Doran, Helen T. Keefe, Ethel E. Malone, Francis P. O'Neill, Thomas P. McNamee, Francis J. McNamee, Daniel F. Conroy, Forest J. Whittaker, David F. Conroy, Curtis M. Sullivan, Catherine H. McSwain, Bridget F. Desalvo, Helen M. Callahan, Helen M. Gilligan, Mary G. Sullivan, Margaret C. Condrick, Thomas H. Johnson, Augustus C. Dalton, John J. Donahue, Michael M. Sullivan, Margaret C. Kelley, Bridget F. Desalvo, Curtis J. Drew, Thomas P. Conroy, Michael T. Conroy, John E. Maloney, Francis J. Leavagie, Mathew W. Hegarty, Michael J. McNamee, William R. Ford, Joseph J. Powers, William J. Conroy, Thomas E. Clinton, Louis J. Reilly, John E. Maloney, William De Neill, John J. Donahue, Francis L. Garrity, Anne J. Rawlins, John E. Young, Mary A. O'Connell, John S. Langford, Mary E. Cote, John J. Donahue, Margaret H. Levangie, Catherine F. Hegarty, Mary A. O'Connell, John E. Young, Mary A. O'Connell, John S. Langford, Mary E. Cote, John J. Donahue, Margaret H. Levangie, Margaret L. Corrida, Agnes M. Donavan, Mary A. O'Connell, John E. Young, Michael C. Preston, John E. Young, William F. Frazier, Howard P. White, John J. Donahue, Vincent J. Cushing, Cecilia C. Welsh, Flora M. Haviland, Nellie G. Donovan.

A Piano Opportunity.

Any of our readers who have contemplated purchasing a piano will do well to write immediately for a list of the bargains offered by the Ivers & Pond Piano Co. Over 100 pianos of various makes and grades are to be sold at public auction, to be paid for in full, cash, or in monthly installments.

For information regarding these changes the public is referred to the large time-table posters and folders which may be obtained at ticket offices in advance of the above date.

"Every young man ought to have some insurance." Young men of all ages should be so small that they cannot afford a large premium, and therefore take out a cheap insurance. Some one says, "Cheap insurance is dangerous, and fraternal companies often fail." That statement is untrue. A dollar has been lost.

Every dollar in insurance goes direct to help some widow and comfort some suffering orphan. It is true that the premiums are high, but the benefits are greater. If one goes in for a policy, let him go in for a fraternal insurance certificate. My monthly premium shall take the wings of the morning and fly to the home of the widow and comfort her.

God bless the day of insurance. A man owes it to the state, to himself and to his family to insure his life!"—Fraternal Voice.

The Royal Arcanum circulars by return mail from Arcanum, Box 112, Weymouth.

An Admonition.

Have you looked over your WINTER OVERCOATS? Do they not need New Collars and Cleaning?

If so, send them to us.

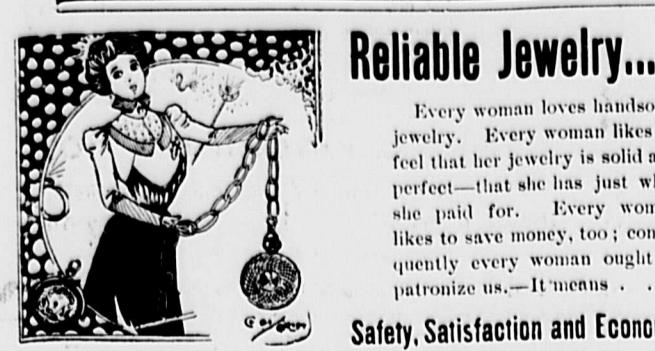

We do Naphtha and Steam Cleansing, Dyeing and Pressing.

### Reliable Jewelry...

Every woman loves handsome jewelry. Every woman likes to feel that her jewelry is solid and perfect—that she has just what she paid for. Every woman likes to save money, too; consequently every woman ought to patronize us—it means . . .

—Call in and look at our pocket knives from 25¢ to \$1.50—Weymouth phar-

—The Union Literary circle met on Tuesday evening with Miss Mary Hopkins of Summer street; Rev. William Hays gave an instructive and interesting talk on "The Importance of Dust."

—Frank L. Lyon is wiring his father's house for electric lights.

—Miss Helen Sills of Phillips street has been engaged to succeed Miss Angelina M. Gutterson as organist at the Baptist church. Miss Sills will enter upon the duties of her new position on Sunday, November 13.

—Lewis Manchester has moved from Hins street to Quincy.

—The Parish Guild of Trinity church will hold its annual Harvest festival on Saturday, November 12th.

—Mr. and Mrs. J. Freeman Saciale and family have been the recent guests of Mrs. Saville's mother, Mrs. Helen Dyer.

—Master Warren Powers, son of Mr. and Mrs. Thomas H. Powers of Bridge street has been very ill the past week with diphtheria.

—Mrs. Catherine E. Britton is visiting friends in Stoughton.

—Mr. and Mrs. Walter F. Sanborn have closed their summer home at the Sand Hills, Slattehouse beach, and have returned to their permanent home on Prospect street.

—The Ladies' Cemetery Improvement association of Weymouth will have a sale and entertainment the afternoon and evening of November 30.

—The registrars of voters met in Engine hall last evening and placed twenty-eight new names on the voting lists.

—Mrs. Miles P. Keene of North Weymouth and Mrs. Caroline Sewell of Weymouth, spent last Saturday with Mrs. Emma Thayer of Weymouth.

—A water pipe near the East Braintree railroad station burst this morning and while doing no damage, gave the residents of that section an idea of street sprinkling on a scale somewhat larger than it is performed by the town.

—Mrs. Ruth B. Blanchard died in Bradford last Monday, aged 83 years and 2 months. In the death of Mrs. Blanchard the end of a long and useful life is chronicled.

—Edward H. Weymouth in 1821 married the second year of her life here.

—Friends who have known her for the score of years she has resided in Bradford, feel they have been blessed with her friendship, all their lives. Not more faithful was Ruth of old, to her kindred, than was she to her own.

—Forty-one years a widow, devoted to the last, and receiving devotion's due from tireless hands, the serenity of her nature was sustained. Calmly, confidently, she approached the valley of the shadow. Oh, not this; the world, that sets this right.

—The burial was in the village cemetery, this town, beside the remains of her husband, Isaac L. Blanchard.

—Next Sunday's sermon subjects at the Baptist church: Morning, "Divine Power Importing Divine Nature." (2 Peter 1: 14) Evening, "Christ's Light and Man's Darkness." (John 12: 46).

—A pretty wedding occurred at the home of Mr. and Mrs. Ernest S. Barrard and Mrs. Alfred Barrard of Brookline. The interior of the house was prettily decorated with autumn foliage and chrysanthemums. The ceremony was performed at eight o'clock by Rev. Robert Hugh Cochrane of the Union church, and was witnessed by the immediate friends of the bride and groom. The bride's gown was of white crepe-de-chine and she wore a tulip veil and held in place with white bird's roses and carnations, a lace border of chrysanthemums. The bridegroom was Miss Agnes Maguire of Brookline, who wore a pink and white muslin dress and carried a bouquet of roses. Mr. James Brown of Cambridge acted as best man. A reception followed the marriage ceremony, and Mr. and Mrs. Barrard were the recipients of a large number of beautiful presents. Mr. and Mrs. Barrard will reside on Commercial street, Weymouth.

—Rev. and Mrs. T. H. Vincent left today on a trip to Meriden, Conn., to be gone some days.

—The subject of Pilgrim church will be occupied next Sabbath by Rev. Asbury Anderson of Boston, who is secretary of the National Council of Congregational churches. Mr. Anderson is a personal friend of Mr. Vincent, and was until recently pastor of the First Congregational church at Meriden, one of the largest and wealthiest churches of the denomination in Connecticut.

—A pretty wedding occurred at the home of Mr. and Mrs. John Hadfield on Commercial street, East Braintree on Wednesday evening, the contracting parties being their daughter, Ida C. and Mr. Ernest S. Barrard, son of Mr. and Mrs. Alfred Barrard of Brookline. The interior of the house was prettily decorated with autumn foliage and chrysanthemums. The ceremony was performed at eight o'clock by Rev. Robert Hugh Cochrane of the Union church, and was witnessed by the immediate friends of the bride and groom. The bride's gown was of white crepe-de-chine and she wore a tulip veil and held in place with white bird's roses and carnations, a lace border of chrysanthemums. The bridegroom was Miss Agnes Maguire of Brookline, who wore a pink and white muslin dress and carried a bouquet of roses. Mr. James Brown of Cambridge acted as best man. A reception followed the marriage ceremony, and Mr. and Mrs. Barrard were the recipients of a large number of beautiful presents. Mr. and Mrs. Barrard will reside on Commercial street, Weymouth.

—Old Colony Club.

—The Old Colony club met in the vestry of the Union church on Thursday afternoon.

—As an introduction to the literary part of the program, the president introduced Miss Katharine Hulman of East Weymouth, who gave a delightful selection on the mandolin. The speaker of the afternoon, Rabbi Charles Fleischer, was most interested who gave a most interesting talk on "Facts and Fictions about the Jews," that he consented to speak on; subject only to discuss the ignorance about the race and to make a better feeling among all humanitarians. That the Jews gave about all the good in the religious world, he said was a fact.

—The Sabbath, the universal peace and good will. The universal brotherhood, even Christ Himself came as a gift from the deposed Jews, as by His birth.

—The Sabbath, the universal peace and good will. The universal brotherhood,

even Christ Himself came as a gift from

the deposed Jews, as by His birth.
